

Global Family Essences - Peace & Serenity

Affirmation - I AM Peace & Serenity Of The Love Of All That Is

This essence of vibratory support was co-created through Source by:

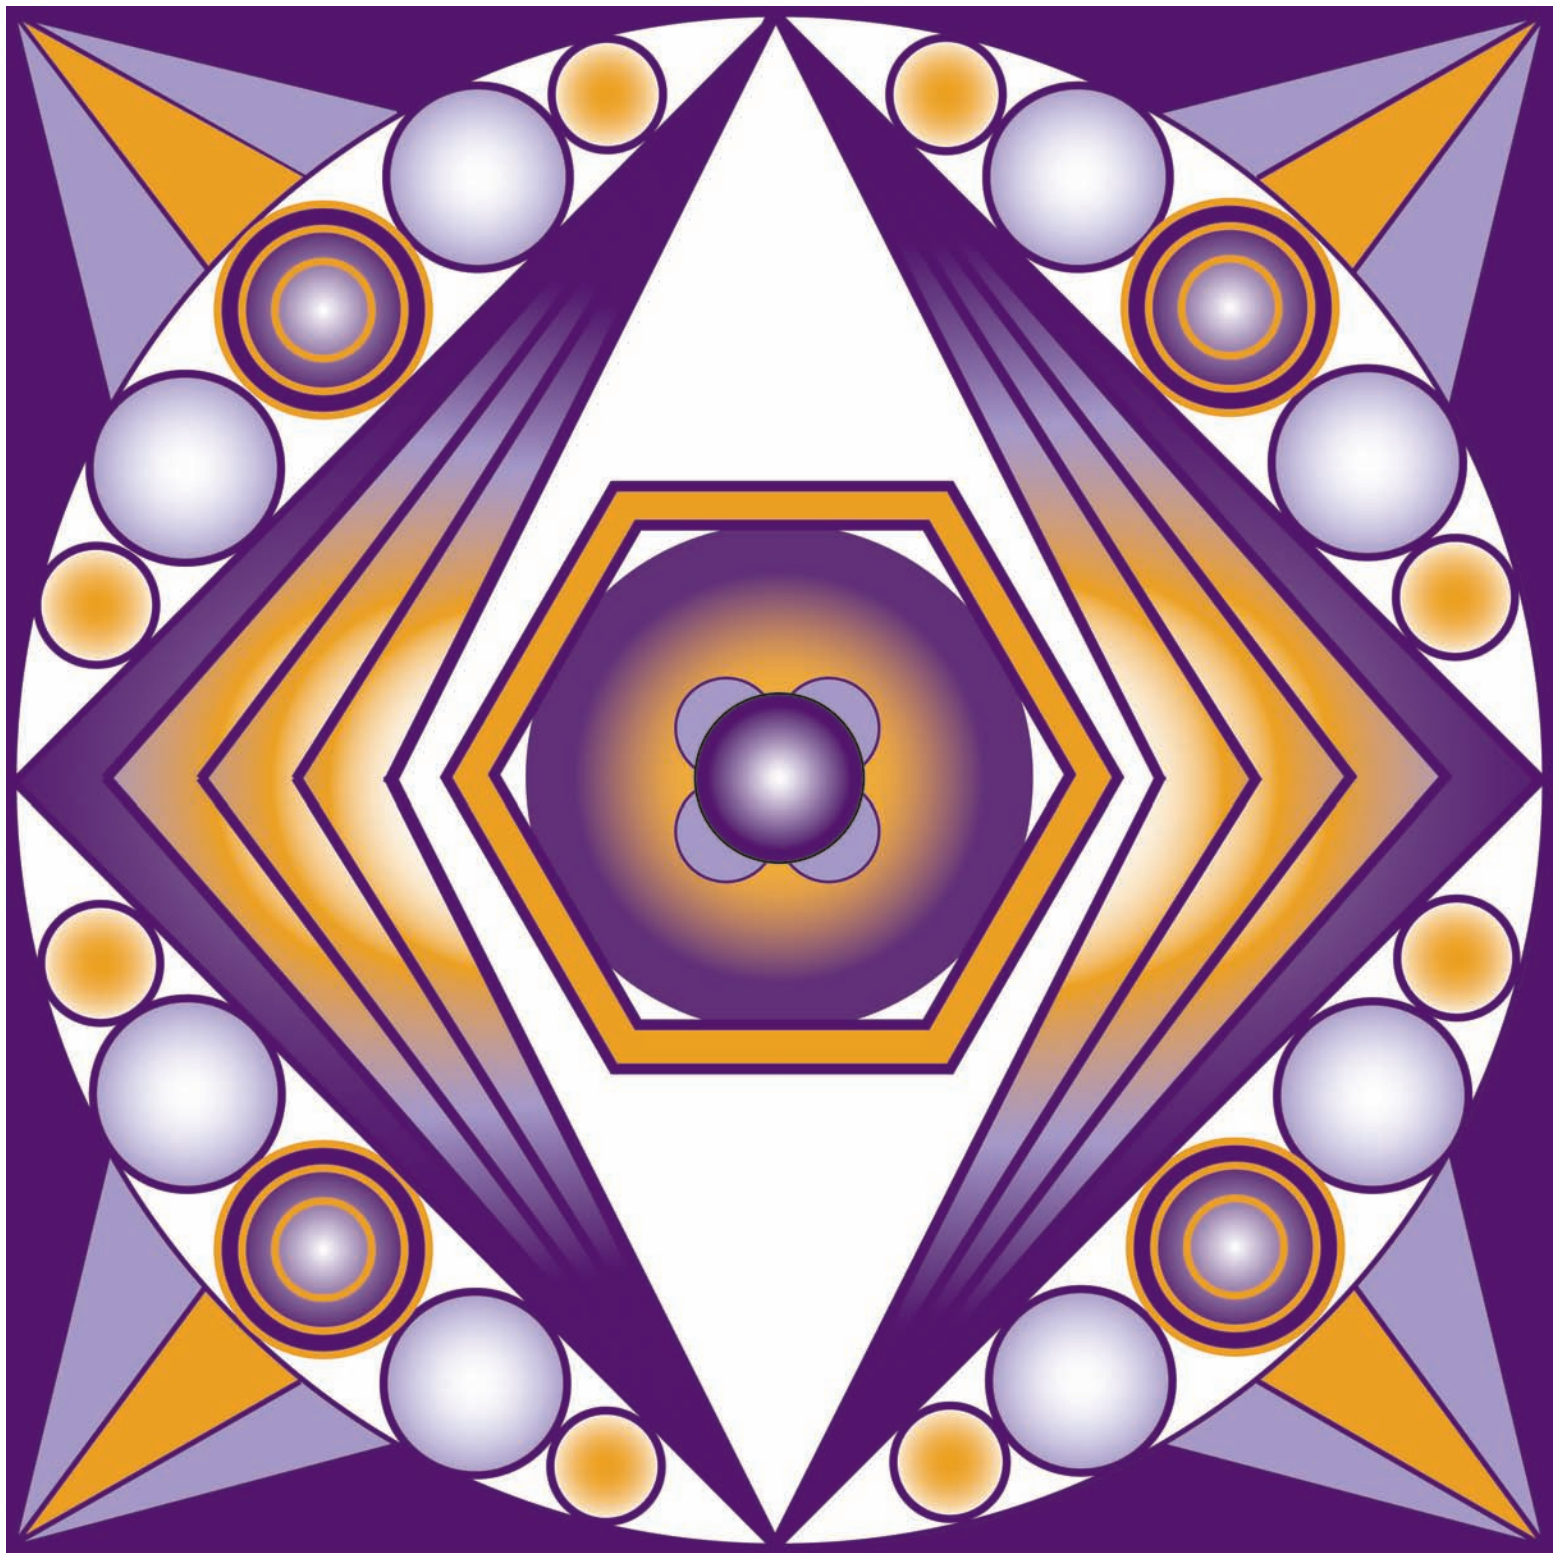

- ✦ Archangels Uriel, Raphael, Metatron, Gabriel, Mikhael*
- ✦ Deva of Peace & Serenity with various accompanying Elementals*
- ✦ Collective Conscious of all attuned to peace & serenity in their hearts*

Elements of this essence all blessed by our Divine Mother & Divine Father:

- ✦ The bubbling of a creek on a warm summer day*
- ✦ A vibration of love and support from Lemuria as it still exists in consciousness today*
- ✦ The song of the cricket as it sings in harmony with its environment*
- ✦ A vibration of support to help shift the pain, grief, sadness, and loss we and the planet and all of its form have experienced as a result of feeling a sense of separation from our Source*
- ✦ The element of transformation connected to the energy of the butterfly*
- ✦ From friars, priests, and monks of times past, the experience of solitude in nature during prayer, contemplation, & meditation*

To connect with and receive this vibratory support, connect with nature, spend time in prayer, meditation, and contemplation. Use the included sacred image of Peace & Serenity in your home or office, or ask to harmonize with the Angel of Peace & Serenity. No matter what method you choose you will be met with love and support where ever you are on your journey. As I completed the ceremony for this essence as one of its co-creative partners, a pair of yellow swallowtail butterflies soared effortlessly while gliding in the element of air. May this bless you and keep you on your promised path.
